

FORHEMIT

Welcome to Your ESOP Transition

Sunrise Manufacturing Co.

Welcome

Welcome to your secure deal folder. This is your central hub for everything related to your ESOP transition. Every document, every update, every milestone — it all lives here.

We created this space so you always have a single place to find what you need, track what's happening, and know exactly where things stand. No digging through email threads. No wondering which version is current. Everything is organized by phase and timestamped.

Why Box.com?

We use Box.com because your deal documents deserve enterprise-grade security. Box is trusted by 67% of the Fortune 500 and meets SOC 2, SOC 3, ISO 27001, HIPAA, FedRAMP, and GDPR compliance standards. Your financial data, legal documents, and sensitive business information are encrypted at rest and in transit.

Beyond security, Box gives you a clean, professional interface to browse your documents from any device — desktop, tablet, or phone. You can preview documents without downloading, search across all your files, and receive notifications when new content is added.

What You'll Receive Here

Your folder is organized into phases that mirror your 120-day ESOP transaction roadmap. As your deal progresses, new content appears in the corresponding phase folder. Here's what you'll find:

 Phase Checklists	Updated daily. Shows what's done, what's in progress, and what's coming next.
 Documents	NDA's, agreements, reports, and deliverables organized by phase.
 Weekly Journals	Your activity digest. Shows everything the team did each week, with outcomes and next steps.
 Activity Log	A running log of all activity across the engagement. Updated weekly.

How to Navigate

1. **Start here** — Read this welcome document first.
2. **Go to your current phase** — The numbered folders (01–06) match your deal timeline.
3. **Check the checklist** — Each phase folder has a checklist PDF that's updated daily.
4. **Review your journal** — The Journal subfolder contains your weekly activity digests.
5. **Browse documents** — The Documents subfolder has all artifacts for that phase.

Questions? Your Forhemit account lead is your primary contact. If you have trouble accessing any document or need something that isn't here, reach out directly.
